

How to make a... PASTA FLAG

By Eliza McCarthy

Materials

- Pasta (all different kinds)
- Canvas (small)
- Red and green texas
- Glue
- Brush

Procedure

Step 1: Put glue all over the canvas (expect on back).

Step 2: Make the pasta into the Italian flag shape. Make sure that all the pasta are the same length.

Step 3: Let the pasta and the glue dry for a few hours.

Step 4: Colour the pasta with your texas. The green goes on the left, leave the middle row plain to represent the white and the last row of pasta red.
